**Subject:** Brief Summary of EPA and DEQ Meeting on Oct. 1st 2019

Hi Hanh,

Good morning! I hope you and Rochelle will have a safe trip driving back home this morning. Thanks so much for driving here to meet with us. I think we had a productive meeting and gained better understanding of the priorities and challenges for EPA and DEQ.

Here is a preliminary list of action items:

1. The pressing priorities for us to work together in the near future are the MDV and Aluminum Criteria promulgation;
2. Aron will have monthly calls with Lindsay on MDV (more frequent if needed);
3. Debra will send you the Variance MOU and the project schedules with the understanding that the project schedule is a dynamic document and may be adjusted in the future. The MOU needs to be updated;
4. We will continue to have the dialogue on temperature issue and both parties have the desire for DEQ to have a temperature strategy soon;
5. Rochelle will send DEQ the Hell's Canyon SSC BiOp
6. DEQ will let EPA know if we need EPA or contractor support to evaluate the diel variability of T where the waterbody meets the current BBNC values as a 7day mean.

I am looking forward to working with you and your team!

Thanks again!

Connie
